

JOINT HEALTH & SAFETY COMMITTEE CERTIFICATION TRAINING LEVEL TWO FOR MANUFACTURING

LEGAL REQUIREMENTS

Once JHSC Members have successfully completed Basic Certification Training—Level One, they are required to fulfill the requirements of Level Two for Manufacturing. The first step is to conduct a Hazard Assessment of their workplace to identify hazards within their workplace. JHSC members then receive training specific to those hazards so that they can effectively assess those identified hazards to determine if they are controlled.

COURSE LENGTH: 2 Days

COURSE INCLUDES: Training Manuals, Wall Certificate, Records of Training, Attendance Report, and Application Exercises

LOCATION: Training sessions are available onsite at your facility, publically across Ontario, or our state of the art training facility. If your facility does not have access to a boardroom, IST has a mobile classroom called the Safety Bus. Please contact our office for more detailed information about training formats and date availability.

PRICE: \$325.00 per person *plus HST
Minimum 6 participants for private onsite

HAZARD MODULES

Based on the results of your Hazard Assessment, the following sample modules may apply to your workplace:

- | | | |
|--|---|--|
| <input checked="" type="checkbox"/> Manual Material Handling/RSI | <input checked="" type="checkbox"/> Violence in the Workplace | <input checked="" type="checkbox"/> Machine Hazards |
| <input checked="" type="checkbox"/> Slips & Trips | <input checked="" type="checkbox"/> Chemical Hazards | <input checked="" type="checkbox"/> Mobile Equipment |
