

JOINT HEALTH & SAFETY COMMITTEE CERTIFICATION TRAINING PART TWO FOR CONSTRUCTION

LEGAL REQUIREMENTS

Once JHSC Members have successfully completed Basic Certification Training—Level One, they are required to fulfill the requirements of Level Two for Construction. The first step is to conduct a Hazard Assessment of their workplace to identify hazards within their workplace. JHSC members then receive training specific to those hazards so that they can effectively assess those identified hazards to determine if they are adequately controlled.

COURSE LENGTH: 3 Days

COURSE INCLUDES: Training Manuals, Wall Certificate, Records of Training, Attendance Report, and Application Exercises

LOCATION: Training sessions are available onsite at your facility, publically across Ontario, or our state of the art training facility. If your facility does not have access to a boardroom, IST has a mobile classroom called the Safety Bus. Please contact our office for more detailed information about training formats and date availability.

PRICE: \$475.00 per person *plus HST
Minimum 6 participants for private onsite

HAZARD MODULES

Based on the results of your Hazard Assessment, you will need to take additional training on the identified hazards within your workplace. The following modules may apply to your workplace:

- Review of the Occupational Health and Safety Act and Regulations that pertain to Construction
- Housekeeping and Fire Safety
- Personal Fall Protection
- Personal Protective Equipment
- Safe Use of Hand Tools
- Scaffold Safety
- Thermal Conditions (Heat and Cold Stress)
- Traffic Control
- Trenching and Evacuations
