

TRAIN THE TRAINER PROGRAMS

Our Train the Trainer programs provide participants with the knowledge, skills, and tools to effectively train operators and evaluate their competence. All of our programs are accredited and exceed all applicable industry standards and government regulations.

Prerequisites for our Train the Trainer programs:

FORKLIFT—must have experience operating lift trucks and received formal forklift safety training that meets or exceeds the requirements laid out in the CSA Standard B335-04

SCISSOR LIFT—must have experience operating the equipment and received formal safety training within the past three years

FALL ARREST—must hold a current Fall Arrest protection training card

WHMIS—must have had WHMIS training within the past five (5) years

CRANE—must have good working knowledge of Cranes. Formal training is a benefit

COURSE LENGTH: 1 to 3 days

COURSE INCLUDES: Each participant will receive a training workbook with all required forms and templates, and an electronic copy of all forms and templates. Depending on the course, a training video may also be included.

LOCATION: Training sessions are available onsite at your facility, publically across Ontario, or our state of the art training facility. If your facility does not have access to a board room, IST has a mobile class room called the Safety Bus. Please contact our office for more detailed information about training formats and date availability.

PRICE: Please call for pricing
