

FACE SHIELD FS-1001

Overview:

- Provides Total Face Protection for Healthcare, Industrial, Laboratory, etc.
 - Wherever protection from liquid splash is needed
- This lightweight Face Shield can be worn comfortably for long periods of time and it fits easily over prescription glasses or protective eyewear
 - An anti-fog coating reduces the possibility of fogging in high humidity environments
- The Shield is low distorting and optically clear while a soft foam headband securely positions the device on the wearer while preventing droplets from entering from above

Specifications:

- MDEL Class 1 License number - 11895
- 320mm wide x 220mm tall FACE SHIELD (considered 'full' length)
 - POLYESTER SHIELD MATERIAL - 7mil film (minimum)
