Job Posting

Company Name:	Industrial Safety Trainers Inc.
Job Title:	Occupational Health & Safety Trainer
Job Location:	Ottawa, Ontario
Terms of Employment:	Full Time

Industrial Safety Trainers (IST) is an award-winning Ministry of Labour & TSSA accredited Training Provider. Our trainers and consultants travel the province providing legislative compliance solutions to various industries.

We are currently seeking a dynamic training professional to add to our team to service clients within the Ottawa area corridor using a branded company vehicle (yes, we pay for the insurance and gas). Although you will work out of our Ottawa office, you may occasionally be required to travel throughout the province.

In this role, you will be responsible for course delivery, testing, and practical evaluations, along with other associated tasks. This is your opportunity to shake up the health and safety industry by replacing those boring training sessions with your natural charisma; top hat and tap shoes are provided. The selected candidate will receive on-the-job training and mentoring along with ongoing support and will become a part of a growing, forward-thinking company of like-minded OHS Professionals.

This role is a great fit if you are flexible, adaptable, articulate and think quickly on your feet. You work hard, are self-motivated and are energized by various tasks and assignments. You enjoy the challenge of engaging meaningfully with new audiences, delivering value, and building trust with individuals and teams. You are safety conscious and don't mind autonomously.

If you've had construction, manufacturing, transportation or other industry experience, including the muddy boots and the scars to prove it, are enthusiastic and want to embrace the challenges of working in a fast-paced environment and have an entrepreneurial spirit, we want to talk to YOU!

What You'll Be Doing:

- As our brand ambassador, you will be the face of IST, and we want our face to be immaculate; you'll ensure quality and consistency in the delivery of our training programs while keeping an eye out for sales opportunities
- Hope you really like people because we need you to engage the client in a variety of ways to foster the creation and growth of their internal safety programs, which in turn encourages employees to improve their own safety culture
- Nerding out; you'll provide ongoing technical safety advice, guidance, and coaching where necessary
- Collaborating; help our Training Manager by applying continuous improvement attitudes towards existing training programs as well as, on occasion, the development of new training and internal practices
- Pencil pushing; timely and accurate completion and submission of all required documentation related to training delivery

What We Want:

- A professional operator; experience operating equipment including, but not limited to: forklifts, cranes, elevated work platforms, or other heavy equipment
- CPO Certified; a fully certified JHSC member is preferred
- Boots on the ground experience; experience in manufacturing and/or construction environment preferred
- Interpersonal intelligence; AKA excellent communication and interpersonal skills
- A raconteur extraordinaire; otherwise known as advanced presentation and written skills
- Bilingual - French and English, is an asset
- Critical thinking skills; you have the ability to assess situations and problem-solve for the most effective resolution for all parties involved
- Exposure to adult learning principles is an asset
- Someone who loves technology; excellent computer skills using Microsoft Office applications and adept at minor troubleshooting
- Spotless driving record; must have a valid driver's license with a clean abstract

What We Can Offer:

- Camaraderie; we know it's our staff that drives our successes. Our dynamic workplace is based on respect, where everyone has a voice and participates. Working for IST means you are part of one big family.
- Adventure; our daily life is like that TV show, "How It's Made" - every day brings a different industry or training venue, with new experiences around every corner
- Benefit Package; prescription drugs and a dental plan
- Never having to decide what colour shirt you are going to wear; we provide branded uniform shirts
- An active social committee; BBQ's, Celebrations & Team Building events across the year
- Mandatory company shutdown between Christmas and New Year's Day
- A consistent pay cheque
- Professional development & continuous education opportunities
