Learning

Who should take this course:

This training program has been developed for those just entering or who have limited experience in the construction environment.

Certificates and wallet cards are issued upon completion.

This is a discussion-based session which means through visuals and discussions, the following elements are discussed in detail:

- ◆ What you can expect to see on a job site
- ◆ The legal stuff
- ◆ Personal protective equipment (PPE)
- ◆ Basic construction project hazards
- ◆ Discuss kinds of accidents
- ◆ Understanding of working at heights
- ◆ Understanding of basic safe use of ladders
- ◆ Basic scaffold safety
- ◆ Slips, trips and falls
- ◆ Working around heavy equipment
- ◆ Understanding of confined space awareness
- ◆ Propane use on job sites
- ◆ Common tools
- ◆ Common chemicals
- ◆ Job or task risk assessment
- ◆ Specific on-site job scenarios and actions to take
