

WHMIS (GHS) REFRESHER

The Workplace Hazardous Materials Information System (or WHMIS) is in place to govern the safe use, storage, handling and disposal of hazardous products within Canadian workplaces.

In 2015, the Government of Canada amended the *Hazardous Products Act* and created the *Hazardous Products Regulations* to modify WHMIS in order to incorporate the **Globally Harmonized System** of Classification and Labelling of Chemicals (or the GHS). The modified WHMIS is known as WHMIS 2015.

This online course is designed to provide workers with specific information for working with hazardous products under WHMIS 2015 and WHMIS 1988. Based on the assumption that workers are familiar with WHMIS legislation and regulations, it focuses on specific elements within WHMIS that will aid workers in working safely.

Who should take this course?

Workers within Canadian workplaces who work with, or may be exposed to, hazardous products under WHMIS, and who have already completed WHMIS (GHS) Introduction or equivalent.

Course Overview

After completing the course, participants should be familiar with the following:

- An overview of WHMIS
- Hazardous product classifications and symbols
- Safety data sheet and labelling requirements
- Additional information, such as exemptions
